

Corporate Background

CorVent Medical is a privately held US owned and operated medical-device company specializing in respiratory and ventilation products. Our mission is to reduce complexity through Simple, Safe and Smart technologies that deliver superior value for healthcare systems, government entities, providers, and patients.

CorVent Medical was formed after its RESPOND-19™ Ventilator received a Top 5 selection from the US Department of Defense VULCAN V Challenge. Of the 172 ventilator submissions, our ventilator was the only one to receive FDA approval under emergency use authorization and CE Mark for broader international commercialization, and now has received FDA 510(k) clearance. CorVent Medical is a member of the Global Alliance for Surgical, Obstetric, Trauma, and Anaesthesia Care (G4 Alliance), supporting the World Health Organization and other entities.

CorVent Medical is headquartered in Fargo, North Dakota, where we design and manufacture all of our devices in a state-of-the-art medical device facility that conforms to ISO 13485 standards.

Target Markets

- Intensive Care Units (ICUs)
- Long-Term Acute Care Hospitals (LTACHs)
- Stockpile and Emergency Preparedness (State and National)
- Skilled Nursing Facilities (SNFs)
- Rural, Micro, and Critical Access Hospitals (CAHs)
- Ambulatory Service Centers (ASCs)

Core Competencies & Differentiators (Products)

Simple.

- 5-year standard warranty with extended options available
- Training to achieve full operational competency within 1 to 1.5 hours
- No scheduled service, preventive maintenance, or maintenance contracts

Safe.

- Priority-based alarms system with on-screen help instructions
- Modalities to treat a vast majority of patients
- Utilizes the latest technology, including a Max O2% feature and a low-pressure oxygen mixing system

Smart.

- No proprietary circuit or components
- Connectivity with EHR data improves documentation accuracy, and nurse call connectivity adds an extra margin of safety
- Utilized across acute, sub-acute and stockpile facilities

Why CorVent Medical?

CorVent Medical has a proven leadership team with over 100+ years of combined medical device experience. When working with CorVent Medical, you can expect:

- Products designed and built in the US
- Exceptional customer service
- In-person and online training for end-users at no additional cost
- Products designed with extended shelf life and reliability
- Total cost of ownership is limited to the purchase price of the ventilator

Designed and Built in the USA
